Technical Skills

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML/CSS, C, C++

Frontend: React.js, Redux, Tailwind CSS, GSAP

Backend: Spring Boot, REST APIs, Kafka, Redis, Node.js, Socket.io

Databases: PostgreSQL, MongoDB, MySQL

Tools & Practices: Git, Docker, GitHub Actions, CI/CD, Postman, Swagger, JIRA, Linux, Bitbucket

Testing: Jest, JUnit, Selenium, Cypress

Professional Experience

Associate Developer, Full-Time

Sept 2024 – Present

Nextuple Pvt. Ltd.

On-site

Dick's Sporting Goods | Signet Jewelers | Order Management & Inventory Solutions

- Architected and developed **15+** RESTful APIs using Java and Spring Boot, backed by PostgreSQL and MongoDB; defined API contracts for frontend and downstream services and introduced Redis caching, reducing average query latency by **~40%** across high-throughput inventory endpoints.
- Executed a cross-service NodeId migration from String to Integer across application code, database queries, and indexes; remediated vulnerable dependencies across **two** production microservices while resolving **20+** major defects across retail inventory applications.
- Delivered features through Agile/Scrum sprints with **100%** on-time defect resolution; implemented proactive monitoring that reduced mean incident triage time to under **six hours** for live retail operations supporting **20,000+** stores.

Software Developer Intern

Dec 2023 – Aug 2024

PCS Global Pvt. Ltd.

On-site

PCS Cloud Labs

- Architected and implemented the database layer for PCS Cloud Labs, an in-house EdTech product at PCS Global, designing the schema and database connectivity that powered user authentication and login workflows.
- Cut page-load time by **30%** by re-engineering component rendering with lazy-loading, memoization, and optimized Redux state management.
- Built **3 of 5** core frontend pages (Landing, About, Login) with a responsive, seamless UI using Tailwind CSS and shadcn components, drawing on UX patterns from established platforms to minimize clicks-to-completion for core user actions; achieved **90%** UI test coverage across **95%+** of screen sizes.

Projects

Safety Stock (Order Management & Inventory Solutions)

May 2025

Java, Spring Boot, REST APIs, PostgreSQL/MongoDB, Kafka, Redis

- Owned end-to-end implementation of the Safety Stock capability, delivering **6** REST endpoints, **5** persistence entities, and **8** SKU/node rule-resolution scenarios to support configurable, multi-level inventory safety-stock management as a reusable product capability, adopted across **3+** client product use cases.

NEIP — Nextuple Enterprise Integration Platform (Dick's Sporting Goods)

Oct 2025

Java, Spring Boot, Kafka, REST APIs

- Owned end-to-end implementation of a reusable integration framework, building **10** integration flows and applying it to Dick's Sporting Goods (DSG) for enterprise system integration and inventory data exchange.

Inventory Integration with IBM Sterling OMS (Signet Jewelers)

Jan 2026

Java, Spring Boot, IBM Sterling OMS, REST APIs

- Integrated Nextuple Inventory with IBM Sterling Order Management, implementing **5** end-to-end inventory integration flows covering availability, reservations, adjustments, releases, and reconciliation for a client implementation.

Tuple Paisa — Digital Wallet

Sept 2024 – Jan 2025

GitHub: tuplepaisa-Github Live: tuplepaisa

- Pioneered a responsive digital wallet supporting transfer, receive, and cashback flows; load-tested to handle **100+** transactions per second (TPS).
- Integrated Kafka with SMTP for real-time email alerts, achieving **99.9%** delivery success across **100+** test emails.
- Achieved **98%** backend and **92%** frontend test coverage through unit and integration testing (JUnit, Jest); built a Chart.js dashboard for transaction insights.

Education

Bachelor of Technology — Computer Science and Engineering

July 2020 – June 2024

Sikkim Manipal Institute of Technology, Sikkim, India

GPA: 9.2

Certifications & Achievements

- OMS-only Certification — Kibo Academy (May 2026)
- Peer Recognition, Dick's Sporting Goods: Recognized for rapid ramp-up, ownership, and strong contributions across development, design, and client interactions.
- 3rd Place**, Dell Hack to Hire (Oct 2022): Built an Integration Architecture Doc Generator using the MERN stack with an added cybersecurity layer.
- 5th Place**, Intel oneAPI Hackathon (Aug 2023): Designed an optimized image recognition system achieving a **75%** performance gain using Scikit-learn and parallel computing.
